ANNUAL REPORT

OF THE

SCHOOL BOARD OF BARRINGTON

FOR THE

YEAR ENDING FEBRUARY 15, 1895.

It is with more than ordinary feelings of pleasure that we attempt to report the general condition and progress of the schools of the town. Not that we have been entirely free from disappointment as regards school matters and results; but that in several instances the improvement has exceeded our most sanguine expectations.

As a whole we feel justified in stating that all have been above an average under the present school system, which in our opinion far excels the old district system. Our reason for this preference is as follows: First, the teachers are selected by the school board who are acquainted with the needs and requirements of each school and endeavor to procure such teachers for the several schools as are adapted to each of them; and as they visit the schools from time to time readily observe the changes to be made in order to make each most profitable, secure the best results, and instruct the teachers to practice the required change.

Again, the board look after the school buildings and recommend as fast as reasonable to put them in a condition suitable for the occupation of our children for six hours in a day for twenty weeks, which has been the length of all our schools for the past year.

To Parents.—It matters not how good a condition the scholars

may be in, if you have neglected to perform your responsible part in the education of your children, you are inexcusable.

The highest trust ever committed to you is unquestionably the education of your offspring. You may be unable to furnish them with material goods, but you may furnish them with a liberal education, which is the safest guide to truth and virtue, and the strongest bulwark against vice and immorality. To do this, besides the many little offices you can perform at home to cheer and encourage them in the somewhat wearisome duty of continual study, your frequent presence in the school room would not be inappropriate. If you can by your presence here lighten their labor or increase their interest, you are certainly culpable if you do not perform the duty.

JOEL F. SHERBURNE,
W. E. WATERHOUSE,
G. B. HALEY.
